MAS: P: _____

Date:

Mr. Pate

Discuss IT Topic: If you had the ability to download memories throughout your life to then one-day review them like a photo album, would you do it? These memories have to be kept on the cloud. This means you are connected and your eyesight would be no different than looking through a camera.

Response: If I had the ability to download all my memories throughout my life I would totally do it. I wouldn't have to have a camera to have all my memories recorded, instead they are always there for my enjoyment. I'm positive if this were to ever happen that people would have safe, well protected accounts. In addition, this would probably be expensive to do so we probably wouldn't be able to do this in my life time, and if we do get to be able to do this as a personal choice I wouldn't mind I would let it happen. It would be awesome to just login after a vacation and save all the awesome memories you had throughout the vacation and save them for viewing at any time.
